IskoExchange
User Interface Design

Submitted to:

Prof. Ma. Rowena C. Solamo
Faculty Member
Department of Computer Science
College of Engineering
University of the Philippines, Diliman

Submitted by:
Balingit, Ivan Carlo M.
Cajaljal, Patricia Mae G.
Tan, Luis Carlos B.

In partial fulfillment of Academic Requirements
for the course
CS 191 Software Engineering I
of the
1st Semester, AY 2017-2018

Unique Reference:

The documents are stored in the https://github.com/ivanbalingit/IskoExchange.

Document Purpose:

This document contains the user interface design of the system IskoExchange. The document also contains the links to the videos of those who participated in testing the design.

Target Audience:

This document is made as partial fulfillment of academic requirements for the course CS 191 - Software Engineering I, handled by Prof. Ma. Rowena C. Solamo.

Revision Control:

| Revision Date	Person Responsible	Version Number	Modification
11/24/2017	Luis Carlos Tan	1.0	Initial Document;
11/24/2017	Ivan Carlo Balingit	1.1	Fill out sections of the document

Project Title: IskoExchange

Use Case Specification: This document shows the design of the interface when creating a question and moderating a thread. The Ask Question interface contains the form with fields for the question title, description, and tags. The Moderate Thread interface contains the question title and description, as well as its answers and their replies.

Sample Screens:

InVision Link(s):

https://invis.io/XUEMV5MN2

Participatory Design:

The videos links are as follows:

User 1 : Dominic Maravillo
https://youtu.be/kp1kEEtaJ5I

User 2 : Kristine Lee
https://youtu.be/qwqRehjQ5dc

User 3 : Michelle Dela Rosa
https://youtu.be/D27rspij5A8

Suggested Improvement(s):

- The answer must be more distinct than the replies. The answer box can be longer than the reply box so that it looks more obvious. (User 1)
- Instead of using a flag, the remove answer button can be more obvious by using text like a "report" or "remove" button or images like crosses and trash cans. (User 2 and User 3)
- When an answer gets deleted, its replies should also be deleted. (User 2)
- The appearance of the tags field can be made to look less "forced." (User 2)

Accountability Report:

Team Member	User Interface Design Task
Luis Carlos Tan	Facilitated and recorded the video. Helped in making the view and revisions of the prototype.
Patricia Cajaljal	Made the Prototype
Ivan Carlo Balingit	Made the transcription of the videos. Helped in making the view and revision of the prototype.
