1st Semester, AY 2017-2018

Revision Control

History Revision:

Revision Date	Person Responsible	Version Number	Modification
11/26/17	Ivan Carlo Balingit	1.0	Initial Document; Fill out this entire document.

Control Class: Moderate a Thread

Program Specification (Method): Delete Answer

Input:

```
int answer_id: id of the answer to be deleted
```

Output:

```
bool: indicates whether the answer deletion was successful
```

Program Logic:

```
answer = Answers.getAnswer(id: answer_id) # Get the answer
                                          # with id of answer_id

return answer.delete    # answer.delete returns true if the
                        # deletion was successful and
                        # returns false otherwise
```
